The Wainwright Star

Number 30 — Wednesday, June 14th, 1919 — C. R. MORRISON Prop.

BIG U. F. A. CONVENTION HERE 17th-18th

MONDAY MEETING LOCAL U. F. A.

The monthly meeting of the U. F. A. of Wainwright was held on Saturday afternoon last. About twenty members were present with president R. H. Watson in the chair. Much business was transacted. Arrangements were made to increase the membership by a syystematic campaign of the surrounding district. Arrangements were also completed for the district convention to be held here on the 17th and 18th of this month.

Dr. Little and Rev. N. F. Priestley were elected to confer with the town council in the matter of billeting of delegates and visitors.

Reports lead to the conclusion that the town may be invaded by some five hundred to a thousand farmers for the two or three days of the convention.

The meeting closed after completing the discussions of the Farmers' Platform now one of the famous political documents of this continent. Its provisions were endorsed almost without exception.

CARMEN RETURN TO WORK THIS WEEK

The carmen, who have been out on strike in sympathy with Winnipeg, have gone back to work in the G. T. P. yards here. They will go back with the same schedule and seniority as before they went out.

The members of the Carmens Union in town belong to the Biggar local, and it was from Biggar that the original order to go out on strike came from. A telegram was received last week from Biggar ordering the men to work, but the authority of the telegram was at first doubted and they paid no attention to it, but on finding out that Biggar men had all gone back, the men here followed suit.

The roundhouse men and machinists are still out..

FORDSON TRACTOR DEMONSTRATION

Last Friday the scribe was invited to see the famous little Fordson tractor demonstrate its ability to turn over the sod.

The plowing was on summerfallow on the farm of G. C. Boyd, and the tractor was pulling two 12 inch stubble gang plows, plowing at a depth of over nine inches.

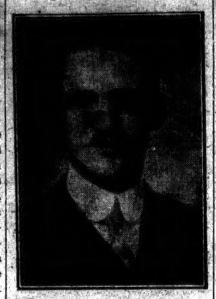

The engine certainly demonstrated that it had plenty of power to plow under those circumstances, and took the plows up the field at about twice the speed that Mr. Boyd was going with the same class of plows and with five good horses.

There is no a particule of doubt that Henry and Son have got a powerful small tractor, and for the work it is intended to do, we doubt if it has an equal.

FIFTY-EIGHT DIVORCE PETITIONS RECEIVED

Ottawa, June 10. According to a return tabled in parliament 398 applications for divorce have been received by the Dominion senate since Confederation and 341 divorce bills have been passed by the upper house. During the present session, up to May 31, 58 divorce petitions were received and 42 divorces recommended.

PROF. W. H. ALEXANDER
Chairman Northern Alberta Division, National War Savings Committee.

ALBERTA LEADER IN EDUCATION BACKS UP THRIFT CAMPAIGN

Prof. Alexander who has taken up the work of vice chairman for Northern Alberta of the National War Savings committee, is one of the original staff of this young and thriving institution of learning located in the city of Edmonton, and has been connected with publicity movements of many kinds during the eleven years of his residence in the capital city of Alberta. Interviewed on behalf of the National Committee to obtain his views on the Thrift campaign the professor expressed himself as follows:

"The cultivation of habits of thrift cannot be said to have been a prominent virtue in Western Canada in the past years. However, this portion of the country, along with the rest of Canada, has been learning during these trying times of war that a cash reserve is a good asset for every citizen and for the community in which he lives. Various forms of saving have been begun, but one of the most attractive of these, for the small investor particularly is the Thrift stamp and War Savings Stamp idea. It is a matter strictly educational in its character and hence appeas strongly to anyone who has had to do with the work of education. Education for character has been emphasized in education more of late than ever, and, in the formation of character, habits of thrift must always take a high place both from the standpoint of the individual and the nation.

"It is not an easy matter altogether to ge a new idea before the public, but I am convinced that the Thrift campaign is taking deeper hold every day. It is a question of having people understand that they are being offered a plan for the ready and profitable accumulation of small savings.

"We are striving to have the people of North Alberta understand that this is almost entirely a volunteer campaign in which leading men and women are giving their time and energy because they believe that they are doing a patriotic work which is advantageous for themselves and highly beneficial for Canada as well. No one who really knows educational work ever anticipates immediate results of great magnitude and in our thrift campaign as in other phases of education, we must realize that we are working on a proposition which from small beginnings is bound to grow into a business of great proportions. Into this volunteer army now comparatively small, we are seeking to enlist every loyal Canadian as an active worker, proclaiming by words and actions the value of thrift. It is our conviction that a nation which did such remarkable work in the stress of war will show equal spirit in meeting war's permanent obligations."

H. H. Wood, President of U. F. A. Will Be Here--Delegates From 120 Locals Will Nominate Candidate

Wainwright will be the goal of hundreds of farmer delegates to their big political convention to be held in the Elite Theatre on Tuesday and Wednesday, June 17 and 18th.

Delegates will be in from 120 locals and it is confidently expected that over five hundred people will be present.

H. H. Wood, presiednt of the United Farmers of Alberta will be present, as well as many other U. F. A. officials.

The purpose of the convention is to nominate a candidate for the federal constituency of Battle River and to perfect organization plans for a political campaign.

Mr. Watson, president of the Wainwright local has been very busy during the last few weeks in connection with meetings discussing the farmers platform and other business of a political nature.

MOVEMENT FOR REFORM OF THE UPPER CHAMBER

Ottawa—As a result of the attitude of the senate in turning down for the third time the house of commons proposal for a clause in the railway act to protect representative control by municipalities over their highways, there is a movement on foot for reform of the upper chamber. H. M. Mowatt who was leader of those conducting the fight for the municipalities is initiating the movement for senate reform.

Owing to the lateness of the session it is doubtful if anything could be done this session and certainy it would be impossible without consent of the government. Mr. Mowatt's proposal is for an elective body of senators, to be elected not for life but for twelve years. The senate is apparently not yet through with the commons legislation It is believed that the Prohibition Bill will be killed, while there is talk f defeating the amendments to the criminal code raising the age of consent.

WORK AN EXTRA HOUR TO PAY DEBT

Berlii—Dr. Bernhard Dernburg, the minister of finance has evolved a plan to raise for the government seven billion marks a year by means of a "government working hour," according to the Neue Zeitung. The plan will become law it is added if the government is convinced that it is workable.

Dr. Dernburg's scheme provides that each worker in Germany shall labor an extra hour each day for which the employers will pay a proportionate wage plus one mark overtime. The extra mark will go to the government. Dr. Dernburg estimates that there are 21,000,000 workers to whom the plan would apply.

The only objection to the plan it is said is that the cabinet may decide that it violates the eight hour day program with which the government has gained much popularity.

Of the one hundred and twenty locals in the riding, one delegates for every ten members of major portion thereof, will be entitled to a vote.

The Battle River Riding is a very large one and extends north as far as Cold Lake, several hundred miles north, takes in Islay, Vermilion, Manville, Jarrow, Kinsella, Irma, Czar, and all east to the boundary. It is one of the largest ridings in the province and is mostly made up of farmers.

ILLUSTRATION FARM PLOTS LAID OUT

The Illustration Farm, which is under the supervision of the Department of Agriculture, Ottawa, and situated on the farm of G. C. Boyd, has been all laid out in five acre plots, with a driveway between each plot.

So far the grain sown consists of Marquis wheat, Banner Oats, and Rye grass. One half of the total area of the government plot will be summerfallowed each year.

AUCTIONEERS SHOULD GET THIS INVENTION

A man's voice can be made as loud as the cannon's roar; it can be heard two or twenty miles. The ticking of a watch can be amplified until it sounds like the breakers on an ocean cliff.

"It's no trick at all to magnify sound 4,000,000 or 5,000,000 times or indefinitely," says Tom Lambert, a wireless telephone engineer. "All that is needful is to connect a number of vacuum valves in multiple with a wireless receiving set and the thing is done. At the first receiving contact a voice will be normal. Cut in one vacuum valve and it is raised seven times, thereafter it squares itself—seven times seven to forty nine times forty-nine for the next and so on.

"I mean volume of sound, not power of transmission," explained Lambert. "In a test recently a phonograph was connected with an amplifier at midnight and we were lifting it up gradually to supply all San Francisco with song and amusement when the police urged us to desist."

"In the stadium at Golden Gate park the ticking of a watch was made audible all over the grandstand, while the athletic meet was in progress. Capt. Robert Brewer an experimenter moved off 2,000 feet and spoke quietly to his dog and the dog couldn't be held. A wireless station recently received a telephone message from Europe and through its amplifier startled duck hunters in the marshes eight miles away."

For practical purposes the vacuum valve has its use, as in warships, where the wireless telephone speaks its message through a horn to several officers, instead of one using the earpiece. It can be availed of to, in addressing audiences.

LIVESTOCK MEN FORM ASSOCIATION

A second meeting of the local branch of the Vermilion Livestock Association was held last Friday when applications for membership were received.

The big problem of finding accommodation for the delegates is left to a committee of two, Dr. Little and Rev. N. F. Priestley, and they are asking any citizen who will be in a position to billet a delegate to let one of the committee know at once. The accommodation facilities of the town will be taxed to the utmost by the crowd that will be present.

The program for the convention is not yet decided upon at the time of going to press. A chairman an officers of the political organization will have to be elected by the meeting.

So far we have not had any definite information of who will get the nomination. Sevaral names have been mentioned including that of Mr. Spencer of Edgerton as the probable lucky one.

A synopsis of the platform appears on another page.

NORM E. COOK IS ON THE ROAD HOME

Word has been received that Norman E. Cook, had arrived in Halifax Monday, and was leaving immediately for the west, when he will be expected to arrive about Saturday.

PROHIBITION MAN GOES TO A DRY SPOT

Vancouver, June 10.—Found guilty at the spring assizes here on the charge of stealing 75 cases of whiskey while employed by the British Columbia government as prohibition commissioner for the province, until dismissed from ofice a few months ago, W. J. Findley was sentenced by the court to two years in the penitentiary.

Findlay's conviction followed third attempt of the crown to prove him builty of a breach of trust while a public servant.

CROP PROSPECTS IN NORTH COUNTRY REPORTED GOOD

A report from the Peace River states that the general crop prospects in the north are excellent. Summer fallowed land has suffered somewhat from soil drifting, but the total damage has been slight. Cut worms have not been in evidence at all. Heavy rains in the last three days of May put the land in good growing condition.

SITUATION IN EDMONTON IS UNCHANGED

Strike Committe Report That They Have Nothing eNw to Give Out

The Edmonton strike situation remains unchanged and the strike executive have nothing to report, according to the Bulletin of June 12th.

Important information received from Winnipeg on Tuesday has been discussed at length by Edmonton strikers. It came from the Edmonton delegates now in the Manitoba capital and told of general conditions prevailing. The strike committee refused to give the information to the press.

The Grand Trunk Pacific system announce the restoration of the local train running between Edmonton and Edson. The train, which had been eliminated on account of the strike, will arrive in Edmonton from Edson 11:30 a.m. and depart for Edson 5 p.m. railway time on Tuesdays, Thursdays, and Saturdays.

The Canadian Pacific railway reports a continuance of usual business and information from the Canadian National is to the effect that its service is also being maintained.

A resolution has been passed by the strike committee asking the use of alcoholic beverages all its members to abstain from for the duration of the strike.

LIBERAL PRIMARIES HELD ON TUESDAY

At a meeting held in Wainwright last Tuesday, delegates were appointed to attend the district Liberal convention at Vermilion Thursday. The following delegates were appointed: V. E. Graham, S. R. Bowerman, Jas. Church, D. W. Hansen, R. Aykroyd.

The district convention will nominate the candidate to contest the federal riding of Battle River in the next election.

No one has been mentioned specifically as likely to be the selection of the convention.

CHAUVIN WILL HOLD SPORTS DAY JULY 4th

The committee in charge of the arrangements for the Chauvin sports day have made considerable progress with their work. A whirlwind baseball tournament with first prize of $100 is announced. This will no doubt prove a very keen competition and will alone be worth the small admittance charged at the gate. Football will also be featured this sport having greatly increased in public favor during the past season.

Horse racing will be provided for by four events with prizes of $50 downwards. Special attention and preparation is being given to the track.

Music will be provided the day long by a band of twenty-five musicians.

A long list of athletic events is in the course of preparaion details of which will be published later.

A dance wil be held in the evening.—Chauvin Chronicle.

THE BEST VARIETIES OF GRAIN

For many years the Dominion Experimental Farms and Stations have been conducting tets in the various provinces to determine the best varieties of cereal crops for cultivation in Canada. In circular No. 16 issued by the cereal division of the department of Agriculture, at Ottawa, the merits of the leading varieties are discussed and such information given as will be a guide to farmers in selecting the varieties to sow this spring. After a general discussion of the varieties the best kinds are arranged approximately in the order of merit for the different parts of Canada. Wheats are divided into six classes: Following are the leading varieties in each class: Fall wheat, Dawson's Golden Chaff; spring wheat late ripening, Red Fife; early ripening Marquis; very early Ruby; extremely early Prelude, Durum, Kubanka. These several early sorts are recommended for norhern areas. An oats the Banner is placed first; six rowed barley, Manchurian; two rowed barley Duckbill; hooded barley, Success and Champion; hulless, Guy Mayle; Emmer and Spelt, common emmer is named as the best sort. Arthur is placed at the head of varieties of peas. Navy, a pure white bean of medium size is highly recommended and Novelty is the name of the best flax for seed while Longstem is considered best for fibre. Rye buckwheat is the best sort so far decided.

NO FIXED REPARATION SUM HAS BEEN NAMED IN TREATY;

Paris, June 11—Distinct progress was reported on the reply of the allied and associated governments to the German counter proposals and indications are that the reply will be ready for delivery on Friday.

The Germans will be given 5 days' limit for final action, which would therefore come on or before June 18.

The main feature of this progress was an agreement regarding the reparation terms, which have been the subject of sharp controversy during the past ten days.

As finally adopted, the terms do not fix the definite amount of reparation but the commission is required to fix the amount within four months of the signing of the treaty.

The main changes are explanations, rather than modifications, in order to meet the contention that the financial commission was vexatious, inquisitorial and infringed Germany's rights to conduct her own financial affairs.

Final action on Germany's request for admission to the league of nations has not yet been reached, but the discussion is declared to be tending toward an accord.

President Wilson fought strenuously to include a fixed total sum in the reparations clause, and the close of the discussion leaves him unchanged, it is said, in the belief that it is the best plan.

FARMERS CONVENTION HERE NEXT WEEK

Synopsis of the Farmers' Platform as outlined by the Canadian Council of Agriculture, and practically accepted complete by all U. F. A. locals:

1. A league of nations.

2. We believe that the further deveopment of the British empire should be sought along the lines of partnership between nations free and equal under the present governmental system of British constitutional authority. Any attempt to centralize imperial control is opposed to. Any attempt to set up an independent authority to bind the power of the Dominions, whether this authority be termed parliament, council or cabinet, would hamper the growth of responsible and informed democracy in the Dominions.

3. A resolution regarding free trade and tariff reforms:

"Therefore be it resolved that the Canadian Council of Agriculture, representing the organized farmers of Canada urges that as a means of remedying these evils and bring about much needed social and economic reforms our tariff aws should be amended as follows:

a. By an immediate and substantial all round reduction of the customs tariff.

b. By reducing the customs duty on goods imported from Great Britain to one half the rates charged under the general tariff and that further gradual uniform reduction be made in the remaining tariff on British imports that will insure complete free trade between Great Britain and Canada in five years:

c That the Reciprocity agreement of 1911 which stil stands on the United States statute books be accepted by the parliament of Canada.

d. That all foodstuffs not included in the Reciprocity Agreement be placed on the free list.

f. That all tariff concessions immediately extended to Great granted to other countries be Britain.

g. That all corporations engaged in the manufacture of products protected by the customs tariff be obliged to publish annually comprehensive and accurate statements of their earnings.

e. That agricultural implements farm machinery, vehicles, fertilizers, coal, lumber, cement, illuminating fuel and lubricating oils be placed on the free list and that all raw materials and machinery used in their manufacture also be placed on the free list.

h. That every claim for tariff protection by any industry should be heard publicly before a special committee of parliament.

4—As these tariff reductions may very considerably reduce the national revenue from that source, the Canadian Council of Agriculture would recommend that in order to provide the necessary additional revenue for carrying on the government of the country and for the for the bearing of the cost of the war, direct taxation be imposed in the following manner:

a. By a direct tax on unimproved land values, including all natural resources.

b. By a graduated personal income tax.

c. By a graduated inheritance tax on large estates.

d. By a graduated income tax on the profits of corporations.

e. That in levying and collecting the business profits tax the Dominion government should insist that it be absolutely upon the basis of the actual cash invested in the business and that no considerations be allowed for what is popularly known as watered stock.

f. That no more natural resources be alienated from the crown, but brought into use only under short term leases, in which the interests of the public shall be properly safeguarded such leases to be grant ed only by public auction.

Several provisions dealing with the demobilization, etc., of the returned soldiers are embodied in the next two clauses.

Land Settlement

7. A land settlemen scheme based on a regulating influence in the selling price of land. Owners of idle areas should be obliged to file a selling price on their lands, that price also be regarded as an assessable value for purposes of taxation.

9. Public ownership and control of railway, water, and arrial transportation, telephone telegraph and express systems all projects in the development of natural power and of the coal mining industry.

Democratic Reforms

10. To bring about a greater measure of democracy in government we recommend.

The immediate repeal of the War Time Elections Act.

The discintinuance of the practice of conferring titles upon citizens of Canada.

The reform of the federal senate.

An immediate check upon the growth of government by order in council and increased responsibility of individual members of parliament in all legislation.

The complete abolition of the patronage system.

The publication of contributions and expenditures both before and after election campaigns.

Proportional representation.

The establishment of measures of direct legislation through the initiative, referendum and recall.

The opening of seats in the parliament to women on the same terms as men.

The provisions of the farmers' platfor mhave been discussed very fully by nearly every local in the district and many changes were probably suggested from the original drafting of the platform.

GOVERNMENT HITS BLOW AT REDS; CAN DEPORT AGITATORS

Ottawa, June 7—Parliament struck a heavy blow at Bolshevism when a bill directed against agitators of the red revolutionary type passed the three stages of the commons, was given a first, second and third reading in the senate, and secured the royal assent all accomplished within an hour.

Such rapid legislative action can only be accomplished by unanimous consent but no objection was raised in either chamber. The bill is in the form of an amendment to the immigration act which recently became law. This act gave the government power to deport aliens who advocated the overthrow of constituted authority but it failed to provide against immigrants from the British Isles, many of whom have come to Canada.

THANKS DONORS FOR THEIR CONTRIBUTION

The proceeds of the dance held last week by the Young Ladies of Wainwright, which were set aside for the relief of the inhabitants of the village of Las la Biche, were recently forwarded to the relief headquarters at the Bulletin office, Edmonton, and the following replay acknowledging the gift was received.

Miss M. Lawlis,

We are in receipt of your letter of the 5th inst., enclosing a donation of $28.25 for the Lac La Biche Relief Fund from the Young Girls Club of Wainwright. We are handing this donation to the local branch of the Red Cross Society who have taken over the relief work and feel sure that this donation will prove very welcome in the re-establishment of the homes of the Lac La Biche sufferers.

Yours very truly,

Killam Band Result of Community Spirit

The following tribute to the Killam band, and the conditions which have contributed to its success appeared in an issue of the Camrose Canadian under the heading of correspondence:

"A good example of the community spirit is shown in the little town of Killam on the C. P. R. where the business men and farmers cooperate to a wonderful degree.

Without doubt the greatest factor in bringing the farmers and the business men together in Killam has been the Killam band, a band of which the town has every reason to be proud.

On Saturday evening last, the band under the leadership of W. L. Ruzicka, consisting of 27 pieces turned out to welcome back from the war one of their members in the person of Fred Pawling, who went overseas with the 151st battalion.

The bandsmen in their uniforms made a splendid showing. After being met at the station Pte Pawling and the members of the band were entertained at a banquet served by the town.

The band has an active membership of 38 pieces and it is hoped to raise the number shortly to 50 pieces pieces.

One of the business men was recently asked as to the origin of the band and the answer was that it was organized four years ago under the leadership of W. L. Ruzicka, to whose untiring work and devotion to its interests the band owes its efficiency and popularity today.

The bandmaster is being maintained by the town and business men who pay him a monthly salary the town also donating a liberal sum to the band for music, every month, in return for which the band plays in the bandstand on Main street every Saturday evening.

To come to Killam on a Saturday evening and see the street crowded with autos and people who throng to hear the band and do their shopping is a sight to be admired, some farmers coming from as far as twenty, thirty and even forty miles.

These farmers appreciate the fact that the business men are doing their best to cooperate with the farmers. Cooperation is essentially the byword in that community.

Killam is about to bring in a weekly half holiday and the business men will make use of this half holiday to entertan the people of the district.

The band will be in attendance on each occasion and with a program of baseball, football and other sports some interesting times are looked for.

In the meantime the business men and townspeople will make frequent excursions with the band travelling up and down the different railways, demonstrating the fact that Killam has one of the best bands in the province.

For a community to succeed the business men of the town and the farmers must pull together.

Instead of the money going to the mail order houses the farmers are brought into touch with the towns people and come to realize that the local merchants are not unreasonable after all, in spite of all the inducements of the mail order catalogues.

To maintain a band the organization must have the support and backing of the townspeople. It is hard work to attend practices and keep on drilling until proficiency has been attained, and financial assistance is needed all the time.

The Killam band is very fortunate in having a "real backing" in that it has the whole commmunity solidly behind it in its endeavors and it cannot but succeed.

The band is fitted to accept any engagement and its services are in great demand, on every holiday often having engagements as far away as Saskatchewan and wherever the band goes Killam and district is well represented as a good sized crowd shows its appreciation by accompanying the band.

There is no doubt that music is a great factor in a town and a town certainly cannot have a better advertisement than a good band, besides it being the means of bringing the different classes together. R.W.S.

AIRPLANE JOURNEYS WITH NEWSPAPERS

At noon last Saturday the Curtiss military biplane in its war paint of allied flying markings as used on active service and in charge of Lieut. George Gorman gave an exhibition by flying from Edmonton to Wetaskiwin carrying a quantity of newspapers, and delivering them at the Wetaskiwin fair grounds to T. C. Rubbra agent for the Edmonton Journal The flight was made at an average speed of 90 miles an hour.

Lieut Gorman will give an exhibition of flying and will take up passengers at Wainwright on July first. This will be of great interest to see first hand a real fighting airplane, driven by a man who has spent many days in active service at the front, and was taken prisoner of war by the Germans.

1000 CANADIANS NOW IN FRANCE

London, June 9—Only one thousand Canadian soldiers remain in France. These consist of base details, burial parties, and lines of communication troops. All Canadians have been evacuated from the hospitals in France and the total now in hospitals in England is 9,998 of whom 348 are in Imperial hospitals.

AGAINST DRY LAW

Buffalo, N. Y., June 9.—Twenty thousand men paraded here last night in a demonstration against prohibition, arranged by the local central labor council.

G. W. V. A. convention will be held in Vancouver on June 30th for the Dominion.

ONLY FARMERS ADMITTED TO U.F.A. POLITICAL BODIES

By an overwelming majority the U. F.A. convention for the federal riding of Bow River valley to decide on political action Wednesday voted to allow only bona fide farmers to be members of the new organization.

As adopted the constitution provides that membership in the no political organization is by U.F.A. locals as units and not by individuals thus making it an exclusively U.F.A. organization as only bona fide farmers can belong to the U. F. A. Moreover it was also provided that any candidate of the organization must be a bona fide farmer and must be a resident of the constituency in which he is nominated.

Delegates to the political conventions, the constitution also provides shall be elected by locals of the U.F.A. and U.F.W.A. in the ratio of one delegate to every ten members. Special conventions may be called by the executive on petition of 10 per cent of the locals and an annual convention is to be held at the call of the executive

Guy Johnson of Vulcan and Stewart Galbraith of Armada, put up a hard fight against the proposal to close the membership of the political organization to all but farmers. Mr. Johnson pointed oat that in his district at the last election there were 189 U.F.A. members on the polling lists as against about 800 other voters. It was obvious in such condition that the U. F. A. would be swamped in any test of political strength He did not see why business men and others of sympathy with the aspirations of the farmers should not be permitted to join hands in the political organization.

Mr Galbraith who took a part in the three cornered election fight last election in Bow River between Unionists, Laurierites and Non Partisans, gave instances of how this thing of having the farmers in a class organization workekd to their disadvantage, or at least to what he considered their disadvantage in that scrap.

W. D. Trego of Gleichen and H. Simpson of Hanna, led the delegates who opposed admitting other than farmers into the organization and the debate waxed warm for a time. The same idea cropped up again in another form on the question of allowing only farmers to be candidates of the organization and providing that they must reside in the constituency for which they nominated.

A Hanna delegate maintained that this provision was autocratic; that there might not be three suitable men in one constituency, while there might be many more in another. Mr. Trego on this question sided with those who would have the candidate picked from any constituency and pointed out that it would debar even president Wood himself from being a candidate of a constituency in which he did not reside, but the residents of which might want him as a candidate. The answer to this was that Mr. Wood could run in his own constituency. Several delegates warned the convention strongly against allowing any but farmers to be candidates, urging that if the bars were let down some lawyers would be certain to creep in. This argument seemed to decide the convention in favor of farmers only as candidates.

After some further objections during the afternoon, J. Weir M.L.A., from Nanton, the Non Partisan member of the legislature was permitted to speak for some fifteen minutes and dealt mostly in generalities Differing with President Wood who had previously urged the convention that the winning of elections must not be their first aim, Mr. Weir declared that the farmers must turn their attention to winning elections if they wished to get results.

"Resolutions do not count for much," said Mr. Weir, "unless they are backed up by action. I believe that it would have been better to create the membership by voluntary enlistment rather than conscription," this reference being to the decision to have the membership constituted by U.F.A. locals rather than individuals, "but on the whole the new constitution is good."

WAINWRIGHT, ALBERTA, JUNE 11, 1919

MERCANTILE PRICE FLUCTUATIONS

An item was published in last issue regarding a lowering of the price of cotton goods, announced by the cotton mills in Canada. The information was taken from the "Commercial" a drygoods review magazine.

The information was correct as far as it went, but the lower prices only were in force about a week. According to information given by local merchants, a circular was sent out some time in April stating that a cut was made in cotton goods, effecting overalls, etc. Before the revised price list had reached many of the western merchants, the price had gone up to the level and in some cases higher. The fluctuation was due to the fact that the mills were loaded with denims and cottons for war purposes, and when the armistice was signed these orders were cancelled, leaving the mills with a large stock on hand.

The government had just cancelled their orders, when the overseas trade among the people of France, Italy, Belgium, placed huge orders for all classes of cotton and woollen goods, and the mills immediately put their prices up to the old level. These export orders are keeping the manufacturers busy and as the payment of the goods is made through government credits to foreign countries, cash is readily available for the manufacturers' output immediately upon delivery. The price paid for export goods more or less regulates the home market, and in the opinion of one merchants here, it will be some time yet before there will be any noticeable drop in cotton prices.

Woollen goods are on the up grade, and it is expected that we will have to pay more for this class of apparel this winter than we did last winter.

ON COLLECTIVE BARGAINING

Toronto Saturday Night: Make no mistake, the labor troubles with which this country is now deluged is not a matter of economics. It is not for wages these men are striking, nor is it for hours. In the last analysis it is strife for power. It is war for a dictatorship and that dictator will be Labor if the strikers have their way. The terms collective bargaining has now lost its definition, which was that a craft collectively such, for instance as the Typographical Union would bargain with employers as to wages, hours and the like. Collective bargaining, as now interpreted, really means that this same Typographical Union would not be master of its own affairs, but would merely form a cog in a great labor machine. In other words, it is just another name for the One Big Union and this in turn means in its full significance that the country would be under the heel of a Labor Czar. In these circumstances it is but natural that responsibile labor leaders should roundly condemn the movement.

Under this scheme of "collective bargaining" no trade could be master of his own affairs, nor could any employer even be master of his own industry even to the remostest degree. Under the One Big Union idea it is quite conceivable that a meat cutter in a Calgary slaughter house as supreme head of the O. B. U. would be dictating the policy of the Dominion Iron and Steel company. Or, in turn, a Nova Scotia miner might be telling a British Columbia shipbuilding company how to operate its business.

Under the circumstances, the peril to Canada" industrial life is very real. Present conditions make it impossible for industry to forge ahead. Men who a fortnight ago made a solemn compact as to wages and hours, are today on strike. Other groups which contracted to abide by the decisions of an arbitration committee, now refuse to accept the awards. Manufacturers who, under normal conditions would be out eager for orders, now hesitate to accept any even when tendered them, for they know not from day to day when their men will be working or walking the streets in a "sympathetic" strike.

The U. F. A. have been actively at work in the district discussing their policy for the next election. Indications are that a candidates will be in the field for the federal house, and the name of Mr. Spencer has been frequently mentioned.

A little cooperation will be needed between the town people and the members of the Gilt Edge Municipal District, regarding a good road to Clear Lake, or otherwise our summer resort will lose its popularity. New fences have blocked the old road completely.

Hon. T. A. Crerar has resigned, owing to differences regarding the budget brought down in the house. Are signs becoming more apparent of trouble in the Union government. Talk is quite frequent regarding an election this fall.

The strikers have added the grievance of the "high cost of living" to their other troubles. In this there is certainly just causes for complaint. An investigation should be made into the high cost of the "high cost of living" department and its apparent uselessness.

Enquiries about land in this district from residents in the western States are quite numerous. We have received several letters lately asking for land listings, information, etc., about Wainwright district.

The peace negotiations seem to have lengthened out as long as the war, in the time it should take to wind the business up. The Germans will have to put their "John Henry" on the little peace paper by the 18th of June, or there will likely be trouble.

The lack of express shipments has hit some of the weekly newspapers pretty hard, as they cannot get their ready prints. We received a call of help from a brother newspaperman to ship some newsprint down for the "love of mike" so that he could get his "rag"ont, but nothing doing, express refused it.

QUESTION OF STOCK RUNNING AT LARGE

Under the provisions of the Municipal District Act Sections 206 to 216a inclusive, authority is given to any Municipal District to pass a bylaw with reference to stock running at large. By the amendments made to the Act at the recent session of the legislature, at the request of the Hon. A. G. Mackay, minister of municipal affairs, any bylaw of a municipal district with reference to stock running at large, must be submitted for approval of the minister before it can be advertised as provided for by section 214 of the said act, and any Municipal Council that is considering the putting into force of a bylaw with reference to stock running at large, should be careful to see that they have the necessary approval endorsed on a certified copy of their bylaw before it is advertised. This amendment was asked for not because it was desired to interfere in any way with the business of the Municipal districts but for the purpose of protecting the Municipal Districts, as far as possible, from trying to enforce a bylaw which would be illegal, and which would get them into trouble. The following is a copy of the model form of bylaw which is being sent out to the Municipal Districts under the instructions of the minister, so that they may draw up their bylaw in accordance therewith:

Bylaw No.—

A Bylaw of the Muni District of No for restraining animals at large.

1. No horse, etc., (describe animals to be effected) the property of any person, resident or nonresident within the said Municipal District of No. shall at any time be at large in that part of the said Municipal District, particularly described as follows (if it is not desired to restrain animals from running at large in any part of the district use the words "in any part of the said Municipal district;" if during certain months of the year, substitute particular months for the words 'at any time')

2. An animal at large shall be deemed to be any animal not under direct control of the owner or someone acting under his authority, or not confined within any building or lawful fence.

3. Any animal at large contrary to the provisions of this bylaw may be imponded in the manner herein provided for.

4. Pounds shall be established as follows: (location of the pounds and names of poundkeepers shall be added.)

5. Any fence conforming with the requirements of the Fence Ordinance shall be deemed to be a lawful fence, (or the Municipal District may define the fence they desire to have as a lawful fence.)

6. Notwithstanding anything herein contained, any resident of the said Municipal District may allow..... head of horses or cattle (up to 100 may be allowed or in the alternative up to 500 sheep) to run at large for every 160 acres of land owned by him within such district.

7. The provisions of Sections 208 to 215 inclusive of the Municipal District Act shall be deemed to be incorporated in and form part of this bylaw.

8. The provisions of the Stray Animals Ordinance, the Entire Animals Ordinance, the Herd Ordinance and the Pound District Ordinance shall cease to be operative within the said Municipal District on the coming into force of this bylaw (if it is desired to retain the Stray Animals Ordinance or the Entire Animals Ordinance the one to be retained shall not be mentioned in this section.)

9. Any person who suffers or permits any animal, which he is entitled to possession of, to be at large within the said Municipal District, shall be guilty of breach of this Bylaw and shall, under summary conviction under Part XV of the Criminal Code, forfeit and pay as a penalty an amount not exceeding One Hundred Dollars and costs, and in default of payment forthwith after conviction, shall be liable to punishment by imprisonment with or without hard labor for a period not exceeding thirty days, unless such fine and costs including the costs of committal are sooner paid.

Done and passed in Council this day of A. D., 1919.

.....Mayor

.....Secretary Treasurer

(Municipal District Seal)

Referring to this model form of bylaw the following points should be carefully noted:

Section 1 refers to "resident or non resident." If it is desired to make the bylaw apply to non residents only, the necessary change desired should be made.

Section 6 provides for the limiting of the number of cattle or horses or sheep that a man owning land within the Municipal District may be allowed to run at large.

The question of the number that may be allowed to run at large in any Municipal District rests with the Council of the district, but no provision can be inserted in the Bylaw so as to allow the owner of land to have more than one hundred cattle or horses or five hundred sheep running at large for each quarter section of land in the Municipal District owned by him. It should, of course, be borne in mind that it is not necessary for the Municipal council to deal with this point at all unless they so desire.

It is important that the provisions of the Act in regard to advertising of the bylaw should be carefully followed; that it, that any bylaw with reference to stock running at large which the Council of the Municipal District intends putting into operation, should, after the form of bylaw has been approved by the minister be advertised by notice in some newspaper published in the Municipality or if there be no newspaper published in the municipality, in some newspaper having a circulation therein. Such notice shall contain a short synopsis of the Bylaw, and in addition, a copy of the bylaw is required to be posted up in fifteen conspicuous places in the Municipality, one of these places being the office of the secretary treasurer.

If within thirty days after publication of the notice in the newspaper, ten resident electors of the Municipal District petition the council to do so, the bylaw must be submitted to a vote of the resident electors and a two thirds majority of those voting is required before the council can place the bylaw in operation.

HOW RAILWAYS OF CANADA DEVELOPED

Sixteen Miles of Line in 1836 and 38,604 in 1917

The first passenger carrying railway in Canada, the Champlain and St. Lawrence was opened on July 23, 1836, and the length of the line was 16 miles. The line was the only one in Canada until 1847 when the railway mileage was increased to 54. In 1851 the mileage had grown to 159 and in 1861 to 2,146. At Confederation in 1867 the mileage was 2,288. The total railway in Canada in 1901, 18,140; 1911 25,400 and 1917 38,604 according to the Canada Year Book for 1918.

AUTOMOBILES NOW IN CANADA, 1918

The Canada Year Book for 1918 prepared by the Dominion Bureau of Statistics, states that the total number of motor vehicles registered for all of Canada in 1918 was 275,746 as compared with 65,598 in 1914, an increase of 296 per cent in four years. In 1914 the number of motor cars registered in Ontario was 535; in 1918 114,376. In Quebec province the number has grown from 254 in 1907 to 26,897 in 1918. For Saskatchewan the number of registered automobiles has increased from 8,020 in 1914 to 50,531 in 1918. In Alberta there were only 41 automobiles registered in 1906; in 1918 the number was 29,300.

HOMESTEAD ENTRIES

In 1917 the total number of ordinary homestead entries for lands of the Dominion government was 8,768 as compared with 12,568 in 1916, 17532 in 1915 and 25,623 in 1914, according to the Canada Year Book.

TARIFF CHANGES

Pending receipt of fuller information concerning tariff changes proposed by the government, it is impossible to discuss intelligently the budget speech of the finance minister. Enough has come over the wire however, to make clear that government is handling the whole matter with scrupulous care, which is as it should be.

Farmer grievances against tariff are admitted in the lowering of certain duties upon machinery and there has been promised a reduction in the freight haul charges on this class of goods. Other reductions should have a tendency to bring down the high cost of living for all classes, which is a tacit admission by the government that just cause for complaint lies in this direction too.

The whole business is temporary and merely an earnest of the government's intention at an early date to go into the whole tariff and fiscal question with the idea of making changes and adjustments that will bring the country's economic system into line with after war conditions.

NATURALIZATION IN 1917

The naturalizations affected under the Naturalization Act for the twelve months ended December 31, 1917 numbered 9,029. Of these 5,192 were formerly citizens of the United States as stated in the Canada Year Book.

AUSTRALIAN NAVY

The Imperial government has handed over to Australia the destroyers Anzac, Swordsman, Tattoo, Silwart, Success, and Tasmania. Australian men will man the navy and the government will maintain and control them.

SPORTING

EDITED BY BASEBALLIS FOOTY SPINORITY

Several matches between the married and single men have been played on the baseball diamond this week and on Tuesday evening the married men had the young fellows going and coming. With the fast infield of Vernie Graham, H. C. Munn, Geo. Campbell and W. Pigeon, the young bucks simply couldn't get by them. The final score of 15 to 6 in favor of the married men, is plain evidence of the fact that they are still there with the goods. W. E. Simpson left the benedict's ranks to assist the young fellows by filling the position in the pitcher's box. The following is the line up:

James	catcher	Wlcox
Blinn	pitcher	Simpson
Campbell	1st b.	G. Pigeon
V. Graham	2b	H Pigeon
W. Pigeon	3rd b	Croanie
H. C. Munn	short	Smith
G. Smith	centre	Steinnard
R. Smith	left f.	St. Orange
Prosser	right f.	Dobel

Another game will be staged Wednesday evening

Prospects for a baseball league among the towns along the G. T. P. including Irma, Edgerton, Chauvin and Wainwright looked pretty certain at the beginning of the season. but as events have shown, this optimism has not been warranted. Edgerton, Chauvin and Irma have signified their willingness to have some sort of schedule drawn up, and it is up to Wainwright to make the start. The town people have very generously donated sufficient money to purchase the uniforms, and now demand or at least expect to see some action. The local ballteam has unfortunately not yet go ahold of a good man for the pitcher's box. Still if there is to be a team at all this summer, it is time something was started.

A fine exhibition of ball was staged at Chauvin on June 3, when the Edgerton team and Chauvanites met. The final score was 1 to 0 in favor of the Chauvanites. According to spectators it was a toss up as to who had the best team, and the Edgerton boys can claim considerable credit in the manner in which they played the game, even if they were on the short end of the score.

The Senior and Intermediate football teams played a close hard fought game Monday evening with the following on the teams: Seniors, Fred Casey, Tolmei; Aykright, J. Whittle; A. Pecknold, R. Greer, T. Lissimore, B. Holtzbaum and J. Forrest. Intermediates were E. Boyd, R. Scoffield, Dvaies, Hodgkiss, Pecknold, Kemp, E. Tory, G. Boyd, S. Aykroyd, G. Pigeon and H. Pigeon.

The score at the end of the first half was seniors 0, intermediates 3; and the final score was 1 to 3 in favor of the young team. By the looks of the score the professional team will have to change their personnel if they let the younger boys beat them out.

Another match will be played Thursday evening.

Seventy-five dollars has been promised to get Lloydminster here for a game and the local club issues a challenge to all comers.

It is not certain whether there will be a trap shoot this Friday or not. Owing to the strike express shipments have been held up and the club is out of clay birds.

A suggestion was made by a quoit thrower that a club should be formed in town for quoit throwers. Our informant says that there are several men in the district that are whirlwinds when it comes to placing the horseshoes on the peg. It's a good idea.

We wish there was an auto club organized here so we could go after them about removing some of the stones on our main roads.

TALKS ON LACROSSE

The beginner in learning to throw it makes little difference whether you throw from the left or the right side. Adopt the side which feels the best to you and stick to it. To teach a man how to let a ball pass out of his stick in the proper manner, is by no means an easy thing. Practice is the best teacher Take your ball and stick and try up against a wall or solid board fence. This may seem a little tiresome at first; but it is the best and fastest way of learning how to handle your stick. The main thing is to keep at it and it wil come to you all at once.

After a man has learned to master his stick a little by practising against the wall, a few suggestions are of value. Nearly all new men first throw with the lower part of their arms entirely. Grasp your stick with the right hand on the butt while the left should be placed well up where the netting is joined with the frame. This hold will give you more control over your stick, when you are playing the game, than if you placed them closer together nearer the butt or middle of the handle of the stick.

In throwing do not double yourself up in a knot, and push the ball from you as if you were putting the shot. Let your arms have a free movement. Draw your stick well over your left shoulder turning your body to accompany this movement, then bring the stick forward, not exactly, but nearly perpendicular and let the ball pass out of the corner of the stick adjacent to the high side of the frame. As the ball leaves the stick the thrower should give the stick a slight jerk backward. This little jerk does the trick, it accelerates the speed of the ball and makes it go more accurately. Practice alone will teach a man this trick. The only suggestion that can be given here is that just as the ball leaves the net draw the butt of the stick slightly in toward your body.

Remember that in throwing the ball the body must accompany the stick and that the use of the proper muscles will tire the back during the first day's practice. The swifter you wish to throw the more the muscles of your back and shoulder must come into play and in any case you should take a step forward with the leg on the opposite side fro mwhich you throw.

In lacrosse the ball is on the ground as much as it is it the air; so the next thing to learn is how to get it from the ground into your stick as surely and quickly as possible. Place the ball on the ground about fifteen yards from you, and, holding the stick with two hands, especially a beginner, approach the ball at a slow jog and just as you are near enough to get the ball under full control, bend over naturally, also slightly bending in the knees while you scoop up the ball. Of course, with the new man, the ball will often run over the other end of the stick. As before said, this should not be; when the ball enters the stick, there is but one place for it, and that is the position from which it can leave your stick in a fraction of a second.

A very important thing to ze remembered is that when you bend over to pick up the ball be sure that the butt of your stick is in such a position that should the stick strike some unevenness in the field or some other man's stick you will not run it into your abdomen One experience will be sufficient, moreover it may cost you a new stick.

Unless you are hard pressed approach the ball at a moderate pace until within ten feet then increase your speed suddenly and scoop it up. This reserve force surprises and takes the nerce of your opponent, and gives you a better chance to get around him. Above all, never circle toward the ball. Go straight at it. Now if the ball is coming toward you as you approach it, the stick must be placed nearly perpendicular to stop it and at the same time to cause it to keep its position in the stick.

It takes a man with at least a season behind him to appreciate that there is no such thing as too much stickwork and practice of picking up the ball either coming toward, from the side or rolling away from him. So practice these elementary factors of lacrosse, whenever you get a chance.

DEPARTMENTAL EXAMINATIONS 1919

I beg to advise you that the departmental examinations for grades VIII, IX, X, XI and XII will be held this year on July 2, 3, 4, 7, 8, 9, 10, and 11th at the following centres in this district:

Mannville, St. Paul de Metis, Vegreville, Vermilion, Viking, Wainwright.

The department will supply the required foolscap, drawing paper, squared paper and ink, but candidates shall provide themselves with rulers, compasses, penholders, etc. Candidates writing on the examinations in drawing must provide themselves with a soft eraser, a good drawing pencil, ruler, India ink, water colors and suitable brush or brushes. For the work in water color a supply of water and conveniences for cleansing the brushes should be provided.

The examinations for the first and second year commercial course will be conducted at Calgary, Edmonton, Lethbridge and Medicine Hat, during the same period as the grade examinations.

CONFERENCE PLACES MINISTERS IN DISTRICT

The following ministers of the Alberta conference have been assigned to the Wainwright district:

Wainwright — Norman F. Priestley B.A., (2); Thomas W. Bateman (10) missionary in China.

Edgerton—Thos. Taylor, 1.

Irma—Charles G. Hockin, B. A., B.D., (3.)

Jarrow—Joseph E. Ball under the superintendent of Irma.

North Viking—One wanted.

Kinsella—(A. H. V.) under the chairman of the district.

Holden—C. S. Pinder under the superintendent of Tofield.

Tofield—David Simpson, 2.

M. D. Bayly, A. V. Houghton J. E. Ball, C. S. Pinder to Alberta college

District officers:

Norman F Priestley B. A., chairman; David Simpson, financial secretary; Thomas Taylor, educational secretary; N. F. Priestley secretary Social Service and Evangelism; Chas. G. Hockin secretary religious education.

T. A. CRERAR TENDERS HIS RESIGNATION

Ottawa, June 9—Hon. T. A. Crerar, minister of agriculture has placed his resignation in the hands of Sir Robert Borden. The official announcement of his retirement was made recently. None of the other other Liberal Unionist ministers are retiring. They are satisfied with the budget.

Dissatisfaction with the budget as announced, was the cause of the retirement of the minister of agriculture.

LIBERAL NOMINATIONS

W. F. Puffer was nominated at Calgary by the Red Deer Liberals as their federa candidate.

Lethbridge, Medicine Hat and Macleod conventions will nominate no candidates until after the Ottawa convention.

SHERIFF'S SALE

Under and by virtue of a Distress Warrant given by Ed. Thompson to The Sheriff Edmonton Judicial District and to me directed against the goods and chattels of H. J. Young and George T. Young, named in the said Distress Warrant, I have seized the following goods, namely:

LOCAL PARAGRAPHS

Rev. N. F. Priestley returned from conference last week.

A big crowd was at Clear Lake Sunday enjoying the pleasures of our summer resort.

* * *

Mrs. Capt. Malone returned from Edmonton last week where she consulted a specialist in regard to throat trouble from which she was suffering.

* * *

Mr. Brown, a new settler to the north of Fabyan, who has been in the Wainwright hospital suffering from blood poisoning, will return home this week much improved.

* * *

Mr. Holtzbaum is visiting his brother Constable W. Holtzbaum of the A. P. P.

* * *

Those desiring to participate at the Soldiers' Banquet on the evening of July 1st must secure their tickets for same before June 20th as no tickets can be sold after that date.

* * *

A most enjoyable social event took place on Friday afternoon when Mrs. Barthold Fraser entertained her friends at an "At Home."

Her spacious rooms made a splendid setting for an event of this kind.

The guests were delightfully entertained by vocal solos from Mrs. W. S. Clark, Mrs. D. O. Brown and Miss Parsons.

The tea room was a picture with the beauty of its floral decorations enhanced by the lovely gowns of the ladies who assisted and presided over the tea table, with its exquisite lace, white ribbons, pink blossoms and ferns.

Mrs. Zinkan assisted by Misses Helen Shirley, Hazel Brunker and Loraine Fraser, were charmingly attentive to the guests and the tea table was graciously presided over by Mrs. W. E. Washburn and Mrs. D. O. Brown who were relieved by Mrs. A. E. Mills and Mrs. H .C. Munn.

* * *

The U. F. A. Sunday originally scheduled for next Sunday has been postponed until June 22nd, when all members of the U. F. A. will be expected to attend at their respective places of worship.

* * *

A shooting accident occurred in the Doley district last week, when Laverne Treffry was the victim of carelessness on the part of another in handling a rifle.

Charlie Hart and Laverne were examing a .22 calibre rifle which was of the "not loaded" kind, when the gun went off, the bullet entering the wrist ofyoung Treffry and passing around the bone, lodged in the opposite side of his arm.

He was brought into the hospital last Monday and the doctor removed the bullet, after having a litte difficulty in finding where it had lodged. The boy who is only 14 years of age, is recovering nicely with no complications setting in so far.

* * *

Mr. Rice of Fabyan was taken to the hospital this week with a very bad case of blood poisoning in his one hand. The affected finger was lanced open, and as yet, still is in a dangerous stage. The finger may have to be amputated.

Mrs. Siddall and infant son returned from Edmonton this week.

* * *

E. B. Madder, of Winnipeg, a returned member of the 80th battalion, who has been visiting his brother J. B. Madder, left for home last Friday.

* * *

Ernie Davey, one of Wainwright's popular young men, returned home from overseas last Thursday, and was welcomed at the station by the school children and a big crowd of his many friends.

* * *

Band practice will be held on Friday night, starting at 8 o'clock sharp.

A special meeting of the Red Cross Society will be held in the Council chambers at three o'clock on Friday. All interested please be present. The meeting will discuss the advisability of having a First Aid Station on July first.

* * *

A very enjoyable lawn social was held on the lawn of Mr. Connors, Tuesday. A big crowd of young folks was out and various games, etc, were played.

* * *

The vicar of St. Thomas, left on Monday for Saskatoon where he will unite in matrimony in St. James Church Miss Norah Warner, ex-patrol leader of St. James "Girl Guides" Saskatoon company No. 1, to Pte. Hooker, 65th battalion, who was severely wounded in the second year of the war.

* * *

The Young Ladies of Wainwright are giving a dance in the Elite theatre on Friday evening of this week.

* * *

Chauvin beat Edgerton for a third time in baseball this week, by a score of 3 to 1.

* * *

Dr. Lockwood and Mrs. Lockwood have moved into their new home, opposite the Grace church.

* * *

Cadet inspection will be held at the school next Monday.

Grace Methodist Church

Services for worship at the Grace church: 11 a.m. and 7.30 p.m. Sunday school at 12.15 p.m. Midweek Institute picnic to Mott Lake on Friday June 13th at 3.30 p.m.
